About Me

Hi, I am Diego Cano, a passionate Fullstack Developer based in Aguascalientes, Mexico, and currently pursuing a Bachelor of Artificial Intelligence Engineering at Universidad Panamericana. With a knack for creating innovative solutions, I thrive on leveraging technology to transform ideas into impactful projects.

Skills

Languages: Spanish (Native), English (High level with TOEFL certification)

Programming: React-Typescript, Laravel-PHP, NodeJs, SQL, Python (Intermediate-Advanced)

Frameworks and Tools: TailwindCSS, ReactQuery, Expo, AWS, Retool

Other Skills: Leadership, Teamwork, Problem-solving, Remote Work, Self-taught, Communication

Work Experience

Grupo Texe (Terrazza Italiana)

Software Developer

Aguascalientes, Mexico

October 2023 – Present

- Designed and implemented a DataWarehouse solution to centralize data from 9 sales points across multiple brands, enhancing accessibility and reporting accuracy.
- Built custom dashboards in Looker Studio and Retool for operational insights, and developed attendance tracking software on-site.
- Automated daily sales reporting via WhatsApp, streamlining communication and decision-making for executives.

Max4Technologies

Intern Developer

Aguascalientes, Mexico

January 2023 – October 2023

- Developed responsive static websites in React for multiple clients, improving user experience and brand visibility.
- Launched a mobile app using React Native and Laravel for internal scheduling of mechanic appointments, enhancing operational efficiency.

Academic Background

Universidad Panamericana

Bachelor of Artificial Intelligence Engineering

Aguascalientes, Mexico

2022 – Present

- Won the 2022 Hackathon with a project translating sign language to text and speech using computer vision.
- Developed a website and Unity game for the 2023 F1 in Schools competition.
- Current GPA: 8.5/10.

Tecnológico de Monterrey

High School Diploma

Aguascalientes, Mexico

2018 – 2021

- Member of the ambassador program representing the institution.
- Participant in the school's robotics team.
- GPA: 8.9/10.
